

# Case study: LC Packaging

# The Challenge

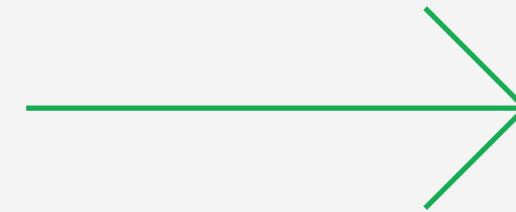

After being awarded a Gold medal in 2019, the company wanted to maintain the level of sustainability in line with this EcoVadis score.

# The Solution

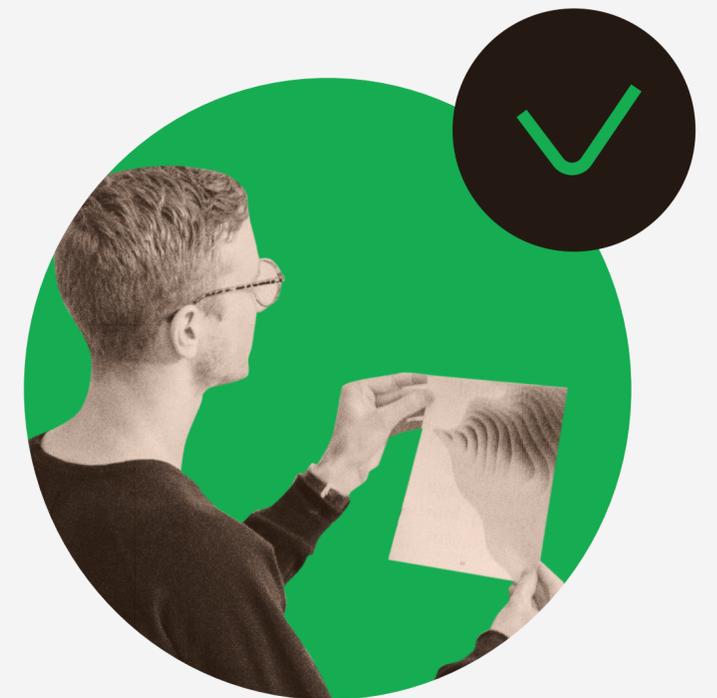

As the global accredited partner, Nexio Projects supported LC Packaging with the EcoVadis assessment.

Revision and KPI reporting were the main themes for this project.

# The outcome

Optimization on all fronts led to an increase in the company's score and a Platinum medal.

## The context

- LC Packaging started their sustainability journey in 2017 with an ESG strategy as well as an EcoVadis assessment, which led to the Silver medal.
- Actions were implemented in line with the strategy and in 2019 the Gold medal was awarded
- The company wanted to maintain this score and further develop the sustainability strategy

## Project Objectives

- The overarching goal is to be a leader in sustainability;
- Maintaining the Gold medal was the main objective for the 2020 assessment;
- Alongside, LC Packaging wanted to step up in terms of sustainability reporting.

## Key Outcomes

- Reporting practices were further developed and optimised in line with the Global Reporting Initiative (GRI);
- Optimisation of policies and procedures to strengthen the Sustainability management system;
- The 2020 EcoVadis assessment was completed, resulting in a Platinum medal

## Nexio Projects' Solution

- Revision of the sustainability policies;
- Recommendation on target setting;
- Centralisation of KPI reporting on all sustainability themes by setting up a KPI dashboard;
- Complete revision of procedures to incorporate the new actions by LC Packaging in line with their sustainability ambitions.

**“Our cooperation with Nexio Projects was essential for us to update our policies and procedures related to our facilities. This not only ensured better alignment with BREEAM assessment requirements but also improved our ability to live up to our sustainability ambitions.”**
